

TYPE: SJ-48QB-O

Features:

- Separation design between depositing system and piston system
---Only 3-5kg depositing plate, 50% energy conservation.
- Non-leakage design of piston system
---Solve piston leakage problems completely.
- Continuous depositing with once positioning
---Increase capacity and extend the service life of positioning system.

One Shot Depositor

Item	Parameters
Pistons	48 sets
Quantity of one shot products per cycle	24 pcs
Deposit mode	3D move depositing
Servo motors	5 sets
Moving axis	X, Y, Z
Flowing axis	A, B
Operating system	One shot system
Can be upgraded to	Decoration system
Deposit accuracy	±0.1g
Deposit speed	360-720pcs/min
Filling rate	≤85% (2D/3D chocolate)
Power	6.93KW
Compressed air	120L/h
Dimension	150m*125m*190m
